

SAP BTP

SAP BUSINESS TECHNOLOGY PLATFORM

Welcome to GTR Academy, your ultimate destination for top-notch online training and education. **Since 2021**, we have empowered **10000+ students** and facilitated **9200+ placements**, helping you step up, learn today, and lead tomorrow!

Our commitment to quality training, distinguished trainers, and transparent dealings sets us apart. We dedicate ourselves to providing excellence in all our programs, whether it's top-quality training, placement support, or the results of exam-based programs. This dedication is reflected in our glowing reviews on Google, Facebook, and LinkedIn.

MR. MICKY MAKHIJA

(AMBASSADOR OF GTR ACADEMY)

DESCRIPTION ▶

In this course, I'll guide you through the world of SAP BTP without any technical jargon. Designed for SAP consultants, Business professionals, IT managers, and developers, with no prior technical knowledge needed.

I have taken enough care not to use technical jargon, fancy words, or unwanted examples. I have tried my best to keep the explanation simple, fun, interesting, and, most importantly, focused on learning the concepts.

This course has Subtitles enabled to help you understand this topic in greater detail without missing the essential points. So, I highly recommend you enable the subtitles and take this course.

Course Content

In this course, you will learn about the SAP BTP Core Concepts like:

- Technology Platform
- Intelligent Enterprises

Training Delivery

1

Discovery call

A call to evaluate training requirements and adjust course and delivery accordingly.

2

Tech call with the Certified Instructor

A call with the Certified Instructor to address specific queries and requirements.

3

Design of Customized Curriculum

Tailored curriculum to meet specific learning objectives and organizational needs.

4

Training and Access to LMS

Commencement of training sessions along with access to the Learning Management System

5

Live training

Live training sessions conducted in real-time to facilitate interactive learning experiences.

6

Hands-on Role Based training with Labs

Interactive training featuring hands-on exercises and specialized labs tailored to specific skillset.

7

Course Materials Access using LMS

Access course materials conveniently through the Learning Management System.

8

Student Progress Metrics

Monitor student progress through comprehensive metrics and analytics.

9

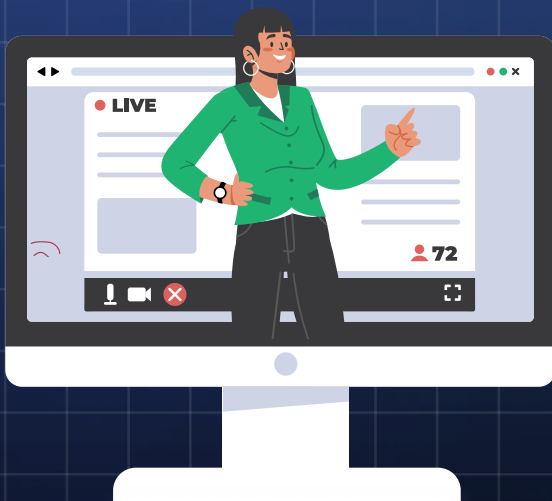

Final Quiz in Gamification style

Concluding the training with a gamified final quiz to engage learners and reinforce key concepts.

10

Certificate of Completion (verifiable)

Participants provided with a verifiable Certificate of Completion upon successfully finishing the training.

Certification Process

1

COUNSELLING

Start your (SAP BTP) Training Course. Get in contact with the best counsellor to choose the best batches for yourself.

2

ATTEND THE TRAINING IN SAP BTP

Attend the Instructor-Led Sessions of (SAP BTP) Training Course and get your Course Completion Certification. Go Through the Recorded Sessions, in case you missed any topic or training.

3

SUBMISSION OF PROJECTS ASSIGNED

Develop your knowledge while doing the hands on projects assigned by the instructors during the certification for Assignments and to get the certification.

4

TRAINING COURSE

Complete your course certification of (SAP BTP) Training Course, and get our GTR Academy at the fore of your name. You can use it on your social networking sites, to interact with experts in the same field, for freelance. It can help you to grow your Network and get the keen work in the expertise.
